SURVEY RESULTS MAP

Gulf Of Mexico Marine Debris Project

Map: Perdido Bay, AL - 2
Map Produced: Apr 24, 2007
Survey Dates: Oct 30, 2006 to Jan 22, 2007

Debris targets identified by side-scan sonar for this project are symbolized by estimated clearance depth, or the distance between the top of the debris item and the water surface at Mean Lower Low Water (MLLW).

- Debris items:
- | S | M | L | S: < 10 cu. ft. | M: 10 to 100 cu. ft. | L: > 100 cu. ft. |
|---|---|---|---|----------------------|------------------|
| ● | ● | ● | < 5 ft. or unknown est. clearance depth | | |
| ■ | ■ | ■ | > 5 ft. est. clearance depth | | |
- Project survey completed
■ Project survey not completed

Some background features extracted from applicable NOAA Electronic Nautical Charts (ENC) using the most recent issue date available as of Oct 5, 2006.

- Buoy (red, green, other)
■ Lighted buoy (red, green, other)
■ Day marker (red, green, other)
■ Lighted marker (red, green, other)
■ Pile / Structure
× Obstruction
⊙ Wreck
- - - Fed. / State Bnd.
- All soundings in feet below MLLW.

The data presented on these maps identify positions of marine debris located by contractors to NOAA. The data were accurate as of the time they were obtained. Due to the dynamic nature of ocean currents and weather items may shift locations. As such, this information should not be used for navigational purposes. Mariners should take extreme caution navigating in waters where debris has been identified. Additionally, there are still many areas not yet surveyed where the locations of navigational hazards are not known.
